

City Council Retreat

February 11, 2014

Final Selection of Council Priority projects

Supported unanimously by City Council straw-poll

Council Office projects:

- Urban Trail Network - re-prioritize and accelerate an Urban Trail Network to connect throughout the City, look to riparian areas and pursue development of nature corridors.
- Public Services Cost Accounting system – system improvements to track accounting for services and maintenance costs by location, function.
- Air Quality – explore and create policy while finding opportunities to expand the policy through collaboration with other municipalities in our air shed – perhaps forming a Salt lake Air Shed Coalition

Formally request of the Administration:

- Cemetery future planning – assessment of the capital needs, infrastructure repair / replacement, long-term management of open space, financing, etc.
- Snow Removal on City sidewalks – resolution (to be passed this winter) to treat sidewalks and streets equally re: snow removal, program in place for next winter (2014-15), including program options to achieve snow removal on sidewalks.
- Campaign Finance - review and possible amendments re: corporation contributions and contribution limits
